Company Profile

www.hanmaecosolutions.co.zw

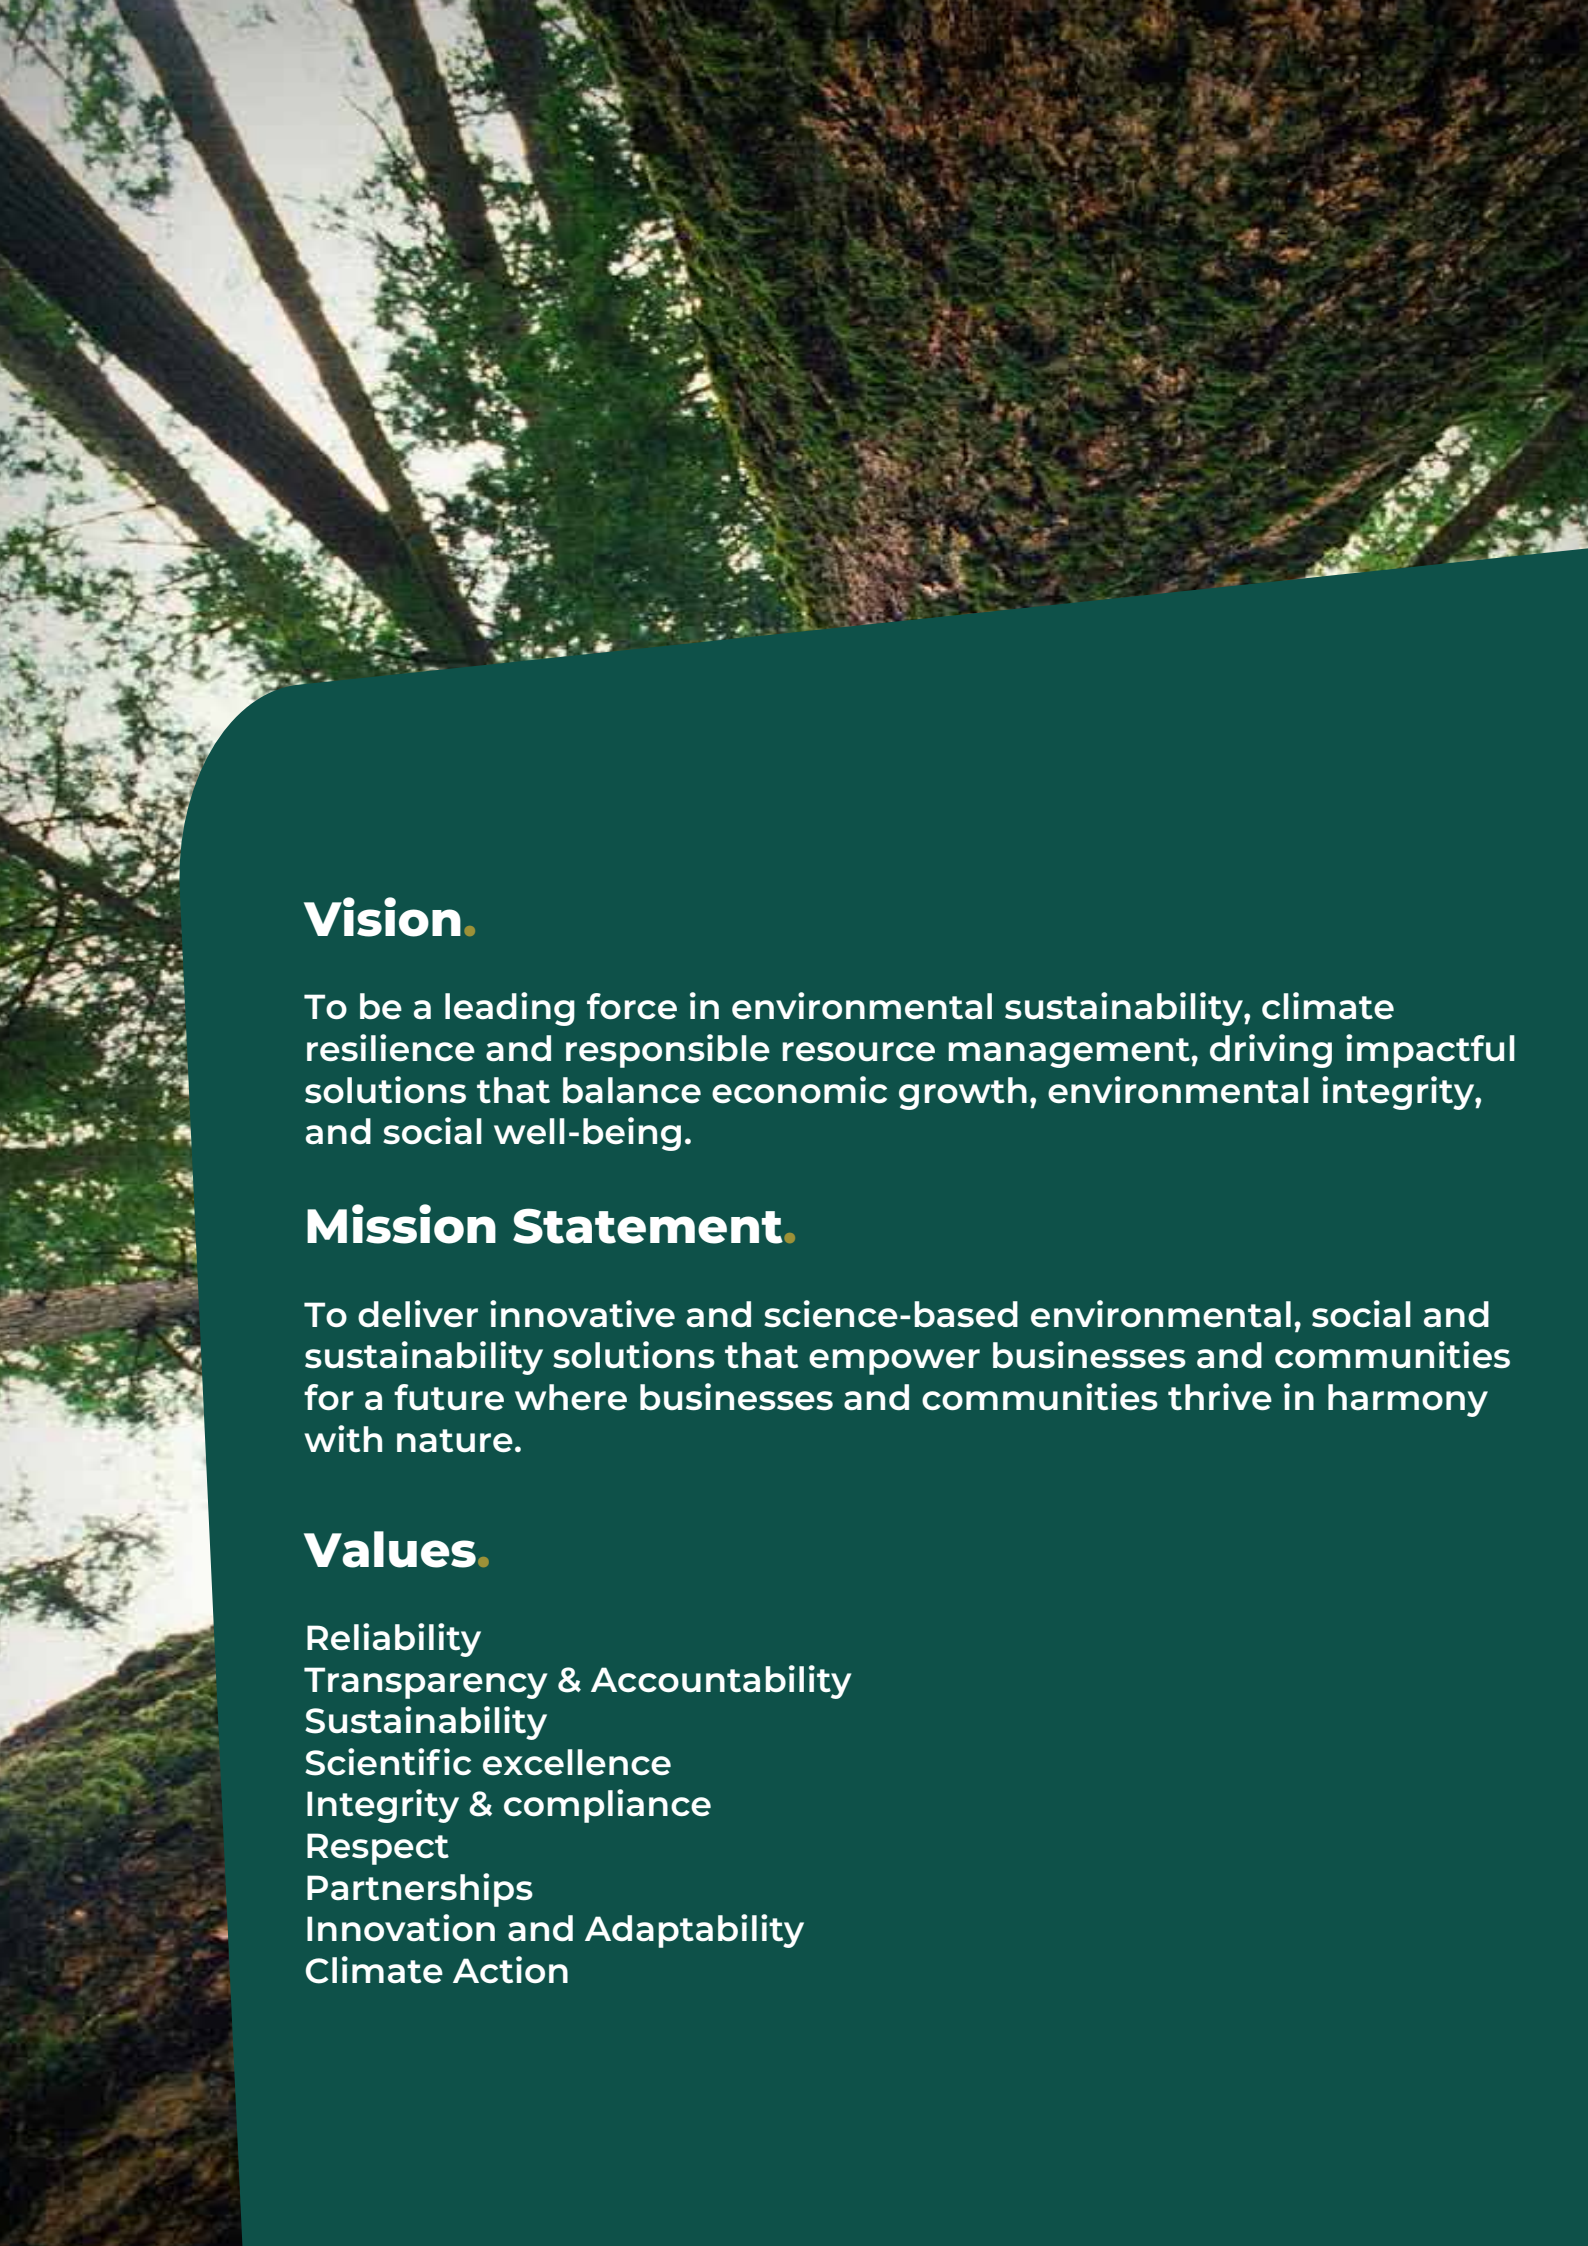

Hanma Eco-Solutions (Pvt) Ltd is a Zimbabwean-owned private company, duly incorporated under the Companies Act and registered with the Environmental Management Agency (EMA) as a certified Environmental and Social Impact Assessment (ESIA) consultancy firm. Backed by a highly skilled team with a combined 55 years of expertise, we have successfully conducted ESIA's across South Africa, Zimbabwe, Kenya, and Ethiopia, demonstrating our strong regional footprint and commitment to excellence.

At Hanma Eco-Solutions, we specialize in delivering tailored, science-based solutions in health, safety, risk, and sustainability, ensuring that businesses and organizations operate responsibly while meeting regulatory and environmental compliance standards. Our diverse clientele spans the mining sector, retail, energy industry, non-governmental organizations, and conservation-focused entities.

Driven by a deep commitment to environmental integrity, climate resilience, and responsible resource management, we provide cutting-edge solutions that balance economic growth with environmental sustainability. Through our expertise, we empower businesses and communities to thrive in harmony with nature, integrating innovation, compliance, and best practices into every project we undertake.

Hanma Eco-Solutions (Pvt) Ltd takes pride in its multidisciplinary team of experts, whose collective experience spans a wide range of environmental and social impact assessments. Our team has been actively involved in numerous EIA projects both in Zimbabwe and across the region, covering diverse sectors such as energy, infrastructure development, land use planning, and mining.

Vision.

To be a leading force in environmental sustainability, climate resilience and responsible resource management, driving impactful solutions that balance economic growth, environmental integrity, and social well-being.

Mission Statement.

To deliver innovative and science-based environmental, social and sustainability solutions that empower businesses and communities for a future where businesses and communities thrive in harmony with nature.
